RESIDENT NOTIFICATION LETTER

Date: 12/21/23

Re: City of Kirkwood, Geyer Road Resurfacing Phase 2

Dear Resident,

This letter is to inform you that Raineri Construction has been contracted by the City of Kirkwood to carry out the Geyer Road Resurfacing Phase 2 project in your area.

Construction activities will take place between 7am and 5pm, Monday thru Friday. At this time there is no weekend work scheduled on this project. The working area may be blocking access to driveways for some residents and this letter is also to inform you of such closure. Crews will make sure to give homeowners a notification before the slab replacement is started involving blocking driveway access.

Throughout the project, there will be some lane and parking restrictions, however police and emergency vehicle access will be always maintained. No Parking Signs will be erected by Raineri Crew at least 24 hours in advance to identify the parking restrictions.

We recognize the inconvenience this work may cause with access to your property. We will make every effort to minimize any potential inconvenience and will try to provide you with as much advance notice as to when disruptions may occur.

We do not anticipate any changes or delays to mail delivery to your property, if there are changes, we will notify you in advance. If any resident requires assistance with the movement of trash cans, please feel free to contact a member of the Raineri crew.

If you have an underground electric pet fence, irrigation system, or sprinkler system, please mark the utility lines before construction. If the lines are not marked, Raineri Construction is not liable for damages.

If you have any questions, comments, need more information or have special accommodation or accessibility needs please contact Tim Kile, Assistant Project Manager, by dialing 314-667-5913 ext 428 (tkile@rainericonstruction.com). We sincerely appreciate your patience and understanding during the project.

Tim Kile
Assistant Project Manager
Raineri Construction
