

Exterior Window Trim, Sill, and Apron.

Architectural Review Board requires the following:

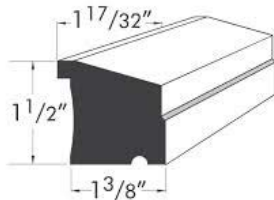

- Trim on both sides and across the head of all windows. The trim shall be a minimum of 3 ½" (inches) in width and ¾" (inches) in thickness.
- The sill shall be a minimum of 1 ½" (inches) in thickness and shall be clearly defined and extend outward beyond the apron to provide a visual definition.
- The apron and sill shall be a minimum of 5 ½" (inches) in width and extend across the entire bottom of the window and trim.
